

FOR IMMEDIATE RELEASE

IZOTOPE LICENSES OZONEMP TECHNOLOGY TO MIXMEISTER

New DJ Software Includes iZotope's OzoneMP Audio Enhancement

CAMBRIDGE, MA – iZotope is excited to announce that MixMeister Technology of Seattle, WA has licensed a special edition of OzoneMP to be included in MixMeister's new DJ software, MixMeister Fusion.

OzoneMP adds warmth, bass, and sparkle by modeling the analog characteristics of vintage audio equipment such as tube amplifiers and valve equalizers. The intuitive graphical interface allows users to fully customize the sound quickly and easily, making it ideal for DJs and electronic artists. For more information on OzoneMP, visit www.ozonemp.com

MixMeister Fusion throws away the traditional dual-deck metaphor in favor of a much more powerful approach, where an entire DJ set can be constructed on-screen. With a workflow similar to digital audio workstations or video production software, Fusion lets you blend full-length songs on a timeline and reorder or remix them, while keeping everything in perfect sync at all times. By automating most beat mixing tasks entirely, DJs can be free to experiment more creatively with their music.

MixMeister Fusion costs \$329.95 and runs on Windows XP. Users can download a free trial copy from www.mixmeister.com

About MixMeister

MixMeister Technology creates innovative software tools for playing, producing and performing music mixes easily. Since its inception in 2000, the company has earned a reputation for making powerful digital media products, which are remarkably easy to use and sound superb. Headquartered in Seattle, MixMeister Technology focuses on helping music professionals accomplish burdensome tasks quickly and easily, as well as enabling newcomers to create professional sounding, beat-matched music mixes for the first time.

About iZotope, Inc.

iZotope is a research-driven audio software company based in Boston, Massachusetts. Its products and audio technology are used by millions of people in over 50 countries, from hobbyist musicians to the Discovery Channel, Sony, and GRAMMY winners. iZotope focuses on developing innovative audio technology for professional and consumer applications. This core technology is presented to customers in its award-winning product line and through its extensive licensing program.
